1 - Players have to go up on the platform and fall down on the frog under it.

2 - This frog will probably eat one of the players. The other player needs to jump on the frog head and stun it to save the other player.

3 - One player must grab the fireflyes fruit and proceed while carrying it. They must evade or fight the dragons and the frog and go higher ground.

4 - After reaching higher ground, players must break the wall so they can finally escape the enemies.

5 - Players will find their grandfathers Cane and will save their progress.

6 - The players needs to cross the path by facing the enemies. They should take care because the floor is breakable, if they make the wrong move, they will fall on the water and the piranhas will catch them.

7 - Players must float on the water to cross it and get the fireflyes fruit. With the fruit they will be able to see underwater.

8 - while still holding the fruit, the players needs to evade the urchins.

9 - After reaching the surface in safety the players will find their grandparents inside a belly of a big frog. They need to stun the frog and set the grandparents free.

10 - After saving their grandparents, the players needs to break the wall and leave the level.
